

# Novo Nordisk International Social club

**In 2008** Novo Nordisk International Club was established by 5 enthusiastic employees from four different countries together with Global Mobility Support.

**The aim** of the Novo Nordisk International Club is to provide a social and professional networking opportunity for all international colleagues across the Danish organisation.

**The Novo Nordisk International Club** is driven by the members themselves, supported by a website which is accessible to all Novo Nordisk employees. The website consists of postings regarding social activities, discussions, FAQ and other relevant information which enables our international colleagues to keep in touch with each other.
