Re agenda item 6 – Proposals of the Board of Directors:

Re agenda item 6.1:

The Board of Directors proposes a reduction of the Company's B share capital from DKK 539,472,800 to DKK 526,512,800 by cancellation of part of the Company's portfolio of own B shares at a nominal value of DKK 12,960,000 divided into 12,960,000 B shares of DKK 1 each. After the implementation of the share capital reduction, the Company's share capital will amount to DKK 634,000,000, divided into A share capital of DKK 107,487,200 and B share capital of DKK 526,512,800.

Pursuant to the Danish Public Limited Companies Act, Section 44 (2), cf Section 44 a (1), it is stated that the purpose of the reduction of the Company's share capital is to distribute funds to the shareholders as the reduction amount has been distributed to the shareholders in payment of shares purchased by the Company in accordance with the authorisations granted to the Board of Directors at previous general meetings. As a result, the share capital is reduced by nominally DKK 12,960,000 and the Company's portfolio of treasury shares is reduced by 12,960,000 B shares of DKK 1 each. Pursuant to the Danish Public Limited Companies Act, Section 44 a (3), it is stated that these own B shares were acquired for the total sum of DKK 3,208,636,800, which means that in addition to the nominal amount of reduction, DKK 3,195,676,800 has been distributed to the shareholders.

The Board of Directors' proposal to reduce the Company's B share capital is made in order to maintain capital structure flexibility.

Adoption of the proposal implies the following change of Article 4.1 in the Articles of Association of the Company that will take effect upon completion of the capital reduction:

"4.1 The share capital of the Company amounts to DKK 634,000,000 divided into A share capital of DKK 107,487,200 and B share capital of DKK 526,512,800."

Re agenda item 6.2:

The Board of Directors proposes that the Annual General Meeting authorises the Board of Directors, until the next Annual General Meeting, to allow the Company to acquire own shares of up to 10% of the share capital and at the price quoted at the time of the purchase with a deviation of up to 10%, cf Article 48 of the Danish Public Limited Companies Act. Such authorisation is customary in Danish listed companies.

Re agenda item 6.3:

The World Diabetes Foundation (WDF) is dedicated to supporting the prevention and treatment of diabetes in the developing world through the funding of sustainable projects. At its core lies the promise of equal access to diabetes care. The WDF was established by Novo Nordisk A/S in 2002 through a commitment to donate an amount not exceeding DKK 65 million per year until 2010. The WDF is an independent trust and is governed by a board of six experts in the fields of diabetes, access to health and development assistance. Since 2002, the WDF has successfully funded 138 projects in more than 70 developing countries, and it is estimated that these projects will potentially influence the diabetes treatment of 55 million people directly.

The Board of Directors of Novo Nordisk A/S wishes to secure that the WDF is able to continue its activities after expiry of the original donation in 2010 and proposes that the Annual General Meeting approves a

donation by Novo Nordisk to the WDF of an amount up to a total of DKK 575 million to be granted as individual annual contributions over a period of 10 years as from the financial year 2008 through to the financial year 2017. The annual contributions will be calculated based on the Novo Nordisk Group's net insulin turnover in the relevant financial year.

The proposal will supplement the remaining part of the existing donation programme in 2008 through to 2010 and at the same time extend Novo Nordisk's donation period through to 2017. The following shall apply to the new WDF donation:

- For 2008, 2009 and 2010: The annual contribution amounts to 0.01% of the Novo Nordisk Group's net insulin turnover in the relevant year, provided that the contribution cannot exceed DKK 5 million per year. The contributions are in addition to contributions under the existing donation adopted in 2002 of 0.25% per year of the net insulin turnover in the relevant year subject to a maximum of DKK 65 million per year. The combined maximum donation per year under the two donation programmes is DKK 70 million.
- For 2011 through to 2017: The annual contribution amounts to 0.125% of the Novo Nordisk Group's net insulin turnover in the relevant year, provided that the contribution cannot exceed DKK 80 million per year.

The proposed donation cannot for any given year exceed 15% of the taxable income of Novo Nordisk A/S in such year.

Re agenda item 6.4:

Novo Nordisk's existing overall remuneration policy aims to attract, retain and motivate members of the Board of Directors and Executive Management of Novo Nordisk A/S. Remuneration levels are designed to be competitive and to align the interests of the board members and executives with those of the shareholders. A description of the overall remuneration policy of Novo Nordisk A/S can be found in the Annual Report pp 44–45 and at the Company's website novonordisk.com under 'About Novo Nordisk' → 'Corporate governance'.

Guidelines for incentive-based remuneration form part of the overall remuneration policy. In light of recently enacted Danish legislation, Novo Nordisk A/S presents for approval at the Annual General Meeting in 2008 its guidelines for incentive-based remuneration for the Board of Directors and Executive Management of Novo Nordisk A/S. The guidelines, which are attached as Appendix 1, comply with the recently enacted legislation, which requires listed companies to prepare and obtain general meeting approval of such guidelines as a precondition for granting incentive-based remuneration to management and board members.

The guidelines for incentive-based remuneration as well as the overall remuneration policy of Novo Nordisk A/S are available at the Company's website novonordisk.com.

Upon approval of the guidelines by the Annual General Meeting, the following new Article 14 will be inserted in the Articles of Association:

"14 Guidelines for incentive-based remuneration

14.1 The Company has laid down guidelines for incentive-based remuneration for the Board of Directors and Executive Management. The guidelines, which have been adopted by the Company's general meeting, are available at the Company's website: novonordisk.com."

The current Articles 14 through 17 will be re-numbered accordingly. Further, the references in Article 5.3 are updated to reflect the revised numbering.

Ad agenda item 6.5 – Amendments to the Articles of Association:

Agenda item 6.5.1:

Amendment of Article 4.2 and Articles 9.2–9.3: Novo Nordisk in December 2007 completed a stock split by changing the share denomination from DKK 2.00 to DKK 1.00, the minimum denomination permitted under the current Articles of Association. To allow the Board of Directors to implement additional stock splits in the future, the Board of Directors proposes a reduction of the minimum denomination (nominal value) of shares stipulated by the Articles of Association from DKK 1.00 to DKK 0.01.

As a consequence of the proposed amendment the voting power attached to the Company's shares will be amended to the effect that each B share capital amount of DKK 0.01 (the minimum nominal denomination) shall carry one vote and each A share capital amount of DKK 0.01 (the minimum nominal denomination) shall carry 10 votes. The change means that each B share of DKK 1.00 (the present denomination of Novo Nordisk's shares) will carry 100 votes and each A share of DKK 1.00 will carry 1,000 votes. The voting ratio between the A and B shares is thus not affected by the change.

The proposed amendment means that future changes of the denomination of the Company's shares may be implemented by the Board of Directors subject to the limit stipulated by the Articles of Association. Such potential future changes will not affect the voting ratio between the A and B shares.

Agenda item 6.5.2:

Amendment of Article 6.3: The Board of Directors proposes that the authorisation of the Board of Directors in Article 6.3 of the Articles of Association to issue B shares to employees without pre-emptive subscription rights for existing shareholders be extended until 12 March 2013 and that it be reduced from the current maximum nominal amount of approximately DKK 21 million to a maximum nominal amount of DKK 4 million. The Board of Directors considers that the reduced size of the authorisation is in accordance with good corporate governance practices and also reflective of the reductions in the share capital effected by the Company in recent years.

Agenda item 6.5.3:

Amendment of Articles 6.4–6.6: The Board of Directors proposes that the existing authorisations of the Board of Directors in Articles 6.4–6.6 of the Articles of Association to increase the share capital be replaced by an authorisation of the Board of Directors until 12 March 2013 to increase the share capital by a nominal amount up to a maximum of DKK 126 million through one or more separate issues of shares.

New shares paid in cash may be A shares, B shares or both. The shareholders will have pre-emptive subscription rights to any new shares in accordance with the Articles of Association and the Danish Public Limited Companies Act. The Board of Directors may, however, decide to issue B shares without pre-emptive subscription rights for the shareholders if the shares are paid in cash and the subscription price equals the market price. The Board of Directors may also decide to issue new shares to be paid in assets other than cash, in which case such new shares shall be B shares, which will be issued without pre-emptive subscription rights for existing shareholders.

Compared to the existing authorisations under Articles 6.4 and 6.5, the amount of shares which may be issued under the new proposed authorisation is reduced to nominally DKK 126 million compared to the existing total of nominally DKK 200 million. The Board of Directors considers that the reduction implicit in this proposal of the total amount of new shares which may be issued without pre-emptive subscription rights is in accordance with good corporate governance practices.

Agenda item 6.5.4:

Amendment of Article 7.2: A recent reform of the Danish municipal sector has introduced new municipality names and regions, and the Board of Directors consequently proposes that Article 7.2 be amended to reflect that the future General Meetings shall be held in the Capital Region of Denmark.

Agenda item 6.5.5:

Amendment of Article 7.4: The Board of Directors proposes an amendment of Article 7.4 of the Articles of Association of the Company, whereby the number of shares required to request an Extraordinary General Meeting is reduced from 1/10 of the share capital (the maximum permitted by the Danish Public Limited Companies Act) to 1/20 of the share capital.

The proposal is intended to enhance the corporate governance practices of the Company and to improve the shareholders' ability to exercise their influence.

To adopt the proposal to reduce the share capital under agenda item 6.1 and to adopt each of the proposals for amendment of the Articles of Association under agenda items 6.5.1 through 6.5.5, at least two thirds of the total number of votes in the Company shall be present at the Annual General Meeting and at least two thirds of the votes cast as well as of the share capital represented at the Annual General Meeting shall vote for the proposals, cf Articles 10.2 and 10.3 of the Articles of Association. The proposals under agenda item 6.2 through to 6.4 may be adopted by a simple majority of votes cast.

The current share capital of the Company amounts to DKK 646,960,000 divided into A share capital of DKK 107,487,200 and B share capital of DKK 539,472,800. The A shares have 10 votes per DKK 1 of the A share capital, whereas the B shares have one vote per DKK 1 of the B share capital. A shareholder is entitled to attend and to vote at a General Meeting provided the shareholder has obtained an admission card (see below). The voting rights may be exercised by a proxy-holder provided such holder substantiates his/her right to attend the General Meeting by presenting an admission card and a duly dated written instrument of proxy.

ADR holders living in the US or Canada will receive their dividend payment from JPMorgan Chase Bank denominated in USD with the statutory deduction of 28% Danish tax. ADR holders that have submitted a United States IRS Form 6166 or a Canadian Residency Certificate of Fiscal Domicile to JPMorgan Chase Bank are entitled to a 13% tax withholding refund from the Danish authorities. The 13% tax withholding refund will be distributed on the dividend payment date for those claimants that have submitted the required forms by the initial filing deadline date 18 March 2008. The exact amount of the dividend will be determined by the exchange rate prevailing (US dollar versus Danish krone) on the payment date.

ADR holders that have not submitted a United States IRS Form 6166 or a Canadian Residency Certificate of Fiscal Domicile to JPMorgan Chase Bank will receive the dividend less the full Danish withholding tax of 28%.

Information for beneficial holders

Novo Nordisk ADR holders, residents in the US or Canada, who hold their ADRs through their Bank or Broker, will receive the dividend payment from their usual intermediary, denominated in USD less the required withholding of Danish tax. For entitlement to the 13% tax refund, as per the Danish-US treaty, beneficial holders should get in touch with their usual intermediary.

Withholding tax reclaim filing

Claims submitted after the short-form time window ending on 25 July 2008 will require a Danish Dividend Tax claim form 06.008 as well as United States IRS Form 6166 or a Canadian Residency Certificate of Fiscal Domicile. Under the provisions of the US and Canadian Double-Taxation Treaties, it is possible to file a claim during the five-year period following the year in which the dividend was paid. Claims may be directed to Morgan ADR or directly to the Danish Tax Authorities. All tax forms are available from:

Guidelines for incentive-based remuneration for the Board of Directors and Executive Management of Novo Nordisk A/S

These Incentive Guidelines apply to incentive programmes for the Board of Directors and Executive Management in Novo Nordisk A/S, where remuneration is dependent on individual or company performance.

The Board of Directors

The members of the Board of Directors are remunerated with a fixed fee and are not offered stock options, warrants or participation in other incentive programmes where remuneration is dependent on individual or company performance.

Executive Management

Executive Management (meaning the executives registered as executives with the Danish Commerce and Companies Agency) may be entitled to participate in the following incentive programmes: 1) a Short-term Incentive Programme and 2) a Long-term Incentive Programme.

The short-term incentive programme may result in a maximum payout per year equal to four months' fixed base salary plus pension contribution. The long-term incentive programme may result in a maximum grant per year equal to eight months' fixed base salary plus pension contribution. Consequently, the aggregate maximum amount that may be granted as incentives for a given year is equal to 12 months' fixed base salary plus pension contribution for each member of Executive Management.

Apart from the above-mentioned programmes, members of Executive Management are not offered stock options, warrants or participation in other incentive programmes where remuneration is dependent on individual or company performance.

Short-term Incentive Programme (STIP)

The STIP consists of a cash bonus which is linked to the achievement of a number of pre-defined functional and individual business targets for each member of Executive Management. The targets for the chief executive officer are fixed by the chairman of the Board of Directors while the targets for the executive vice presidents are fixed by the chief executive officer. The chairman of the Board evaluates the degree of target achievement for each member of the Executive Management, and cash bonuses for a particular financial year – if any – are paid at the beginning of the subsequent financial year.

The cash bonus for each participating member cannot exceed an amount equal to four months' fixed base salary plus pension contribution per year. The calculation of the cash bonus – if any – for a year is typically based on the salary in December.

Long-term Incentive Programme (LTIP)

Each year in January the Board of Directors decides whether or not to establish an LTIP for that calendar year.

The LTIP is based on an annual calculation of shareholder value creation as compared to the budgeted performance for the year.

In line with Novo Nordisk's long-term financial targets, the calculation of shareholder value creation is based on reported operating profit after tax reduced by a Weighted Average Cost of Capital (WACC)-based return requirement on average invested capital.

A proportion of the calculated shareholder value creation is allocated to a joint pool for participants, which in addition to Executive Management includes the other members of the Senior Management Board (i.e. the Senior Vice Presidents of the Novo Nordisk Group).

For members of Executive Management the joint pool operates with a yearly maximum allocation per participant equal to eight months' fixed base salary plus pension contribution.

The joint pool may, subject to the Board of Directors' assessment, be reduced in case of a lower than planned performance on significant research and development projects and key sustainability projects. Targets for non-financial performance related to sustainability and research and development projects may include achievement of certain milestones within set dates.

Once the joint pool has been approved by the Board of Directors the total cash amount is converted into Novo Nordisk A/S B shares at market price. The market price is calculated as the average trading price for Novo Nordisk A/S B shares on the OMX Nordic Exchange Copenhagen in the open trading window following the release of financial results for the year prior to the bonus year; i.e. in the open trading window following immediately after the Board of Directors approval of the programme.

The shares in the joint pool are allocated to the participants on a pro rata basis: the chief executive officer participates with three units, executive vice presidents participate with two units each and the other members of the Senior Management Board participate with one unit each.

The shares in the joint pool for a given year will be locked up for three years before it is transferred to the participants, including Executive Management. Upon resignation during the lock-up period by a participant, the shares will remain in the joint pool to the benefit of the other participants.

In the lock-up period the Board of Directors may remove shares from the joint pool in case of lower than planned value creation in subsequent years, eg if the economic profit falls below a predefined threshold compared to the budget for a particular year.

In the lock-up period the market value of the joint pool will change dependent upon the development in the Novo Nordisk B share price and consequently the interests of the participants including Executive Management are aligned with those of the shareholders.

No dividends are paid on shares in the bonus pool in the lock-up period and the shares in the bonus pool are administered as part of Novo Nordisk's holding of treasury shares.

→

Novo Nordisk continuously covers its obligations under the LTIP through its holding of treasury shares.

In the examples below – that have been included for illustrative purposes only – it is assumed that the maximum number of shares – corresponding to eight months' worth of fixed base salary is allocated to the bonus pool. It is further assumed that the number of shares in the bonus pool is not reduced during the lock-up period.

Example 1: If the share price increases by 10% per annum and the fixed base salary increases by 4% per annum in the lock-up period, the value of the shares at payout will correspond to approximately 10 months' fixed base salary in the year of payout.

Example 2: If the share price stays flat and the fixed base salary increases by 4% per annum in the lock-up period, the value of the shares at payout will correspond to approximately seven months' fixed base salary in the year of payout.
