

Sustainability Accounting Standards Board (SASB)

Health Care Sector & Biotechnology and Pharmaceuticals Industry

At Novo Nordisk, we strive to adhere to the disclosures of the (SASB), which apply to our industry. We do this to demonstrate our commitment to being transparent and accountable for how we operate. We are fully or partially aligned to 20 of 25 indicators. In 2021, we will further assess our adherence and disclosures.

Data and information disclosed are sourced from Novo Nordisk's integrated Annual Report/Form 20-F, our ESG Portal and publicly available information on novonordisk.com. Further ESG-related disclosures are available on novonordisk.com, e.g. the Remuneration Report, Corporate Governance Report and CDP report as well as Novo Nordisk's public policies and positions.

Overview of our assessment of Novo Nordisk's alignment to SASB (updated March 2021)

SASB indicator	Safety of Clinical Trial Participants	Novo Nordisk references
HC-BP-210a.1	Discussion, by world region, of management process for ensuring quality and patient safety during clinical trials	We report on how we ensure quality and patient safety. See the 'Patient safety & product quality' section in our ESG Portal. https://www.novonordisk.com/sustainable-business/esg-portal.html
HC-BP-210a.2	Number of FDA Sponsor Inspections related to clinical trial management and pharmacovigilance that resulted in: (1) Voluntary Action Indicated (VAI) and (2) Official Action Indicated (OAI)	We report on the aggregated total number of failed inspections with a breakdown of the status of the failed inspections as a combination of USFDA, EMA and TUV in our Annual Report (note 9.5, p. 86). https://annualreport.novonordisk.com/ We do not report separately on the number of FDA Sponsor Inspections related to clinical trial management that resulted in VAI and OAI.
HC-BP-210a.3	Total amount of monetary losses as a result of legal proceedings associated with clinical trials in developing countries	We report on material settlements in note 3.6 (p. 63) in the financial statements in our Annual Report. https://annualreport.novonordisk.com/
	Access to Medicines	
HC-BP-240a.1	Description of actions and initiatives to promote access to health care products for priority diseases and in priority countries as defined by the Access to Medicine Index	We report on our actions in the Social performance article in our Annual Report (pp. 14-16) and on novonordisk.com. https://annualreport.novonordisk.com/ https://www.novonordisk.com/sustainable-business/access-and-affordability.html
HC-BP-240a.2	List of products on the WHO List of Prequalified Medicinal Products as part of its Prequalification of	We do not report, since Novo Nordisk products are currently not in scope for the WHO list.

	Medicines Programme (PQP)	
	Affordability & Pricing	
HC-BP-240b.1	Number of settlements of Abbreviated New Drug Application (ANDA) litigation that involved payments and/or provisions to delay bringing an authorized generic product to market for a defined time period	We report on material settlements in note 3.6 in the financial statements in our Annual Report. https://annualreport.novonordisk.com/
HC-BP-240b.2	Percentage change in: (1) average list price and (2) average net price across U.S. product portfolio compared to previous year	We do not report.
HC-BP-240b.3	Percentage change in: (1) list price and (2) net price of product with largest increase compared to previous year	We do not report.
	Drug Safety	
HC-BP-250a.1	List of products listed in the Food and Drug Administration's (FDA) MedWatch Safety Alerts for Human Medical Products database	The data is publicly available at the USFDA website. In 2018, Novo Nordisk had one product listed in the FDA's MedWatch Safety Alerts, Cartridge holders in certain NovoPen Echo® Insulin Delivery Devices. We disclose all product recalls in our Annual Report (note 9.4, p. 86) and on novonordisk.com. https://annualreport.novonordisk.com/ https://www.novonordisk.com/news-and-media/news-and-ir-materials.html
HC-BP-250a.2	Number of fatalities associated with products as reported in the FDA Adverse Event Reporting System	We do not report.
HC-BP-250a.3	Number of recalls issued, total units recalled	We disclose the information in our Annual Report (note 9.4, p. 86). In 2020, Novo Nordisk had zero product recalls, compared to four product recalls in 2019. Whenever there are instances of recalls, local health authorities are informed to ensure that distributors, pharmacies, doctors and patients received appropriate information, if applicable. https://annualreport.novonordisk.com/ https://www.novonordisk.com/news-and-media/news-and-ir-materials.html
HC-BP-250a.4	Total amount of product accepted for takeback, reuse, or disposal	In 2020, Novo Nordisk initiated the "Take-back Programme" in order to address the end-of-life challenge. Initially we are addressing the plastic waste challenge by focusing on disposable devices with a pilot project in Denmark. Currently, we are in the process of identifying the metrics to measure the total amount of product accepted for take-back. Read more in our Annual Report (p. 13) and on novonordisk.com. https://annualreport.novonordisk.com/ https://www.novonordisk.com/sustainable-business/zero-environmental-impact.html
HC-BP-250a.5	Number of FDA enforcement actions taken	We report on the number of failed inspections in our Annual Report (note 9.5, p. 86). The number of failed inspections is measured in relation to

	in response to violations of current Good Manufacturing Practices (cGMP), by type	USFDA, EMA, TÜV SUD and domestic authorities for strategic manufacturing sites. https://annualreport.novonordisk.com/
Counterfeit Drugs		
HC-BP-260a.1	Description of methods used to maintain traceability of products throughout the supply chain & prevent counterfeiting	We have been implementing a comprehensive anti-counterfeit programme to ensure patient safety. A cross functional Anti-Counterfeit Working Group, chaired by the head of our Customer Complaint Centre, ensures vigilant risk assessment and implementation of an Anti-Counterfeit Product strategy. We have an ongoing international collaboration with regulatory bodies, scientific and trade organisations, law enforcement agencies and other stakeholders to investigate counterfeit products and to influence legislation regarding new anti-counterfeit measures. We are a member of the Pharmaceutical Security Institute (PSI), which on behalf of the approximately 30 largest pharmaceutical companies, collects information and coordinates investigations into counterfeit products worldwide. Further information under "Counterfeit Products" section. https://www.novonordisk.com/sustainable-business/esg-portal.html
HC-BP-260a.2	Discussion of process for alerting customers and business partners of potential or known risks associated with counterfeit products	We conduct regular reviews of risks through information exchange with external collaborators. The investigation of suspected counterfeit cases is reported via our affiliates or authorities. Monthly internal counterfeit surveillance reports are reviewed by key specialists and management. Our Quality Management System identifies and investigates alleged occurrences of counterfeited Novo Nordisk products. In China, we work with local investigation firms to perform market searches to help health authorities track down and seize counterfeit products. Outside China, we conduct investigations of suspected counterfeit products based on risk analysis and take legal action against those involved in the counterfeiting of our products. Further information under "Counterfeit Products" section. https://www.novonordisk.com/sustainable-business/esg-portal.html
HC-BP-260a.3	Number of actions that led to raids, seizure, arrests, and/or filing of criminal charges related to counterfeit products	We do not report.
Ethical Marketing		
HC-BP-270a.1	Total amount of monetary losses as a result of legal proceedings associated with false marketing claims	We have included a description of our approach to marketing in our Business Ethics Code of Conduct. https://www.novonordisk.com/content/dam/nncorp/global/en/sustainable-business/pdfs/novo-nordisk-business-ethics-code-of-conduct.pdf We disclose the type and number of false marketing claims in our Annual Report (note 3.6, p. 63). We report on material settlements in note 3.6 in the financial statements in our Annual Report. https://annualreport.novonordisk.com/
HC-BP-270a.2	Description of code of ethics governing promotion of off-label use of products	We provide a description of our code of ethics governing promotion of off-label use of products is included in our Business Ethics Code of Conduct. https://www.novonordisk.com/content/dam/nncorp/global/en/sustainable-business/pdfs/novo-nordisk-business-ethics-code-of-conduct.pdf
Employee Recruitment, Development & Retention		

HC-BP-330a.1	Discussion of talent recruitment and retention efforts for scientists and research and development personnel	We have in place our "Pharmaceutical medicine programme (PMP)", which offers a broad introduction to the pharmaceutical industry, the Pharmaceutical Medicine Programme aims to develop medical doctors, who have 2-5 years of clinical experience, within various functions where strong medical competencies are needed. https://www.novonordisk.com/careers/early-career-programmes.html
HC-BP-330a.2	(1) Voluntary and (2) involuntary turnover rate for: (a) executives/senior managers, (b) midlevel managers, (c) professionals, and (d) all others	We report on turnover rate in our integrated Annual Report (pp. 81 and 85). https://annualreport.novonordisk.com/
	Supply Chain Management	
HC-BP-430a.1	Percentage of (1) entity's facilities and (2) Tier I suppliers' facilities participating in the Rx-360 International Pharmaceutical Supply Chain Consortium audit program or equivalent third party audit programs for integrity of supply chain and ingredients	We do not report, but all our production facilities are certified according to ISO 14001, environmental management. The ISO 14001 certified Environmental Management system ensures continuous improvements through a systematic approach. The production of active pharmaceutical ingredients (API) in Kalundborg, Denmark, is also certified according to ISO 50001, energy management. https://www.novonordisk.com/sustainable-business/zero-environmental-impact/environmental-policy.html
	Business Ethics	
HC-BP-510a.1	Total amount of monetary losses as a result of legal proceedings associated with corruption and bribery	We report on material settlements in note 3.6 (p. 63) in the financial statements in the Annual Report. https://annualreport.novonordisk.com/
HC-BP-510a.2	Description of code of ethics governing interactions with health care professionals	We provide a description of our code governing interactions with healthcare professionals in our Business Ethics Code of Conduct. https://www.novonordisk.com/content/dam/nncorp/global/en/sustainable-business/pdfs/novo-nordisk-business-ethics-code-of-conduct.pdf
	Activity metrics	
HC-BP-000.A	Number of patients treated	We report on total number of patients treated in the ESG statement in our integrated Annual Report in Section 8. https://annualreport.novonordisk.com/
HC-BP-000.B	Number of drugs (1) in portfolio and (2) in research and development (Phases 1-3)	We report on number of drugs in our marketed portfolio and in R&D development in our integrated Annual Report through our product (p. 93) and pipeline (p. 24) overviews. https://annualreport.novonordisk.com/
